Have you considered Paint Protection?

Body Armour Paint Protect is a non-abrasive treatment which contains molecular compounds and selected resins designed for Australian conditions. Once applied a durable seal is formed, giving your vehicle a clear layer - Body Armour.

- Fabric Protection -
- Vinyl & Leather Protection -

DECKED

AUSTRALIA

THE DECKED DIFFERENCE

DESIGNED & ENGINEERED

STRENGTH

Utilising HDPE co-molded around a steel frame, you will experience the torsional and lateral stiffness of a factory vehicle bed. Thanks to our Detroit-based engineering team, DECKED boasts a true 900kg load rating while weighing in at slightly over 90kgs.

MADE IN USA

With engineering and manufacturing partners in Michigan and Ohio, you'll feel the American-made quality the moment you grab the handles and feel the buttery glide of our drawers.

NO DRILLING

DECKED mounts easily to your bed's existing tie-down points with no drilling required. Once assembled, the DECKED system may be removed and reinstalled in a matter of minutes. Your truck or van's manufacturer warranty will not be affected.

STORAGE

Four ammo cans located in the four corners of the DECKED system offer additional storage to our massive bed-length drawers. BONUS: Ammo can lids flip over to reveal drink holders.

WORK SMARTER, *Play harder.*

The DECKED system was designed to provide you with ergonomic storage and organization for your truck.

With a 900KG Payload & 90KG capacity per drawer you can load it up!

- Maintain full use of your beds footprint by adding surface area above the wheel wells and retaining a true 900KG payload
- Each DECKED unit is precision shaped to match your vehicle's sidewall topography
- Built from Bomber UV and weather resistant high density polyethylene and galvanized steel, DECKED is built to last. The system is engineered to be weatherproof to ensure your tools and cargo are always kept dry.
- Each Decked system comes with a 3 year limited warranty
